By visiting Havana, the capital of the Socialist Republic of Cuba, from 15 January 2022 to 29, it was hosted with warmess, respect and honor. Several meetings were held at the headquarters of the Afro-Asian Cuban Friendship Society and at the headquarters of the Global Network for the Defense of Man. With the participation and presence of leaders and leaders of the two institutions, common issues, issues and concerns were discussed. The delegation also organized visits to educational, educational, medical, technological and scientific institutions such as edifices accomplished by the revolution and by the good and struggling Cuban people. The delegation also organized visits and briefing tours to museums and institutions that commemorate historical leaders and highlight the experience of the revolution, its achievements, its leaders, symbols and the symbols of Cuba in the struggle and scientific and social progress.
The initial agreements were made on full interaction, cooperation and coordination between the Assembly and its branches and coordinators spread in more than 57 countries and located in 27 countries, and with the coordinators and branches of the Afro-Asian Cuban Friendship Association and the Global Network for the Defense of Man. The three parties agreed to strengthen cooperation in all fields and activities, exchange documents, coordinate efforts and steps of struggle, innovate and propose activities and activities to support the resistance and defend its choice and to strengthen the steadfastness of Cuba, Venezuela, the liberated countries of Latin America and the Caribbean, countries and movements against hegemony and American and Zionist imperialism and in the face of aggression, wars, human persecution and infringement of the legitimate rights of man and deprive him of his most basic needs and rights.
After accomplishing his mission, he closed the delegation back to start the executive steps.

The most prominent stations of the delegation's visit were as follows:

News coverage of the visit of the delegation of the World Assembly in support of the option of resistance to the People's Republic of Cuba, which began its visit by 15-6 to 29-6-2033 in response to an invitation from the Cuban Friendship Association with the peoples. ICAP

The delegation of the World Assembly to support the option of resistance began its first activities in Havana on the morning of 16-6-2022 by visiting the headquarters of the Cuban Friendship Association with Peoples (ICAP) where the members of the association’s management were receiving it, and then holding a long meeting in the presence and participation of Vice President of the Association Victor Lopez
(Victor Gaute Lopez)
With the participation of the leadership of the association, including the Middle East and Africa official André Luis Ballart (Luis Morejón Ballarte)
The Vice President of the Association presented the names and competencies of the accompanying association and welcomed the delegation of the World Assembly to support the option of resistance and gave a brief and elaborate presentation of the nature of the association and its interests, branches, achievements, date of establishment and the international tasks assigned to it and what it seeks to implement the directions and plans of the leadership of the revolution and the Cuban people. He stressed the unity of the issues of libertarian nations and peoples, and in order to get rid of the enemy of humanity embodied by the US administrations and its aggressive and brutal policies against the peoples.
He stressed that since the victory of its revolution, despite its exposure to the longest, ugliest and most aggressive siege in history, it continues to steadfastness, resistance and the participation of peoples and nations, the option of steadfastness, resistance and fighting on the approach of Che Guevara, Fidel Castro and the martyrs of the Cuban revolution to achieve victory and defeat the forces of colonialism and

aggression.

Thank you to the Secretary General of the World Assembly
He stressed that the revolution, its model and Cuba, the steadfast and resistant people, represents the gathering, the peoples and their free movements and resistance, a model that follows and benefits from its experiences and conclusions. He gave a graceful and interesting presentation of the circumstances of the gathering and its development from a national gathering to an Arab, Islamic and then a global gathering to support the option of resistance. He presented the most prominent goals of the gathering, how it achieved a wide global spread, has branches and presence in more than 73 countries, and 57 branches. He referred to the struggles and conferences held by the gathering and dozens of delegations and personalities from the world.
He then presented the members of the delegation, their competencies and responsibilities in the assembly.

The Vice President of the Association responded with more welcome and asked about the conditions of membership and announced his desire and the Assembly to join the assembly because the goals are the same and common between the assembly and the association as if they were one team, and the Secretary-General of the Assembly gave the members of the delegation time for the interventions and presented their views and in the context. Hassan Jouni, in the work of the representatives of the Assembly and with his participation in the formation of a national committee to defend the five Cuban detainees, organized national events and large movements in support of their release from the claws of the United States Administration. When they were released, the work of the Commission was transformed into the nomination of the José Martí Commission for International Solidarity and the Rachel Corrientian Commission for Solidarity among the Peoples. Freed members of the Cubans were received in Beirut and were celebrated and their just and just cause was publicized.

The Secretary-General of the Assembly presented the future activities of the gathering, the most important of which is the quest to hold an international conference in Tehran under the title of a world free of nuclear weapons and a conference in Damascus under the title of uniting peoples against the practices of prostitute and aggression and the prosecution of countries and people behind the legislation and justification of sieges and sanctions, provided that the two conferences are held before the end of the year and wished the Assembly to participate balanced because of its experience, effectiveness, network of communication and wide communication with representative movements and organizations with common goals.

Then the President of the Assembly, Fernando González Llort, one of the five heroes liberated by Cuba from American prisons, attended the meeting, stressing what the Vice President had said and stressing the need to cooperate and expand it to the maximum extent possible and expressed his desire to push cooperation to the maximum possible interaction and integration.

After the end of the meeting, the delegation was invited to participate in the ceremony honoring the president of the association and its activists and their tradition of the medal and shields for their revolutionary activities and achievements, from the president of the José Marty Association.

Following the end of the honoring ceremony, a meeting was held between the delegation of the assembly and the President of the Association of José Marti, in which he received acquaintance and deliberation in various matters, activities and global struggles in the face of aggression and sieges, and the host invited the gathering to participate in a conference to be prepared in January next year to condemn the American aggressions and organize the global effort in confronting them.

On the second day, the delegation of the World Assembly in Support of the Resistance Option visited the Digital Museum of the Victims of the US Aggression against Cuba. He heard from his administration full explanations about the victims of the American attacks and the delegation toured the sections of the museum and its paintings, which were characterized by creativity and clarity in detecting the falsity of American attacks and revealing misinformation and stripping it, and the delegation in the person of the Secretary-General Dr. Ghaddar expressed thanks and gratitude for the hospitality and attention and efforts of the state and the Cuban people in honoring the martyrs and victims of American aggressions and considered that this is an exceptional feature of the Cuban revolution and hoped that it would be imitated and adopted by the peoples.

In the afternoon, the hosts organized a visit and a tour of the delegation to one of the popular neighborhoods of Havana, which was subjected to a devastating hurricane, the right to severe damage to the neighborhoods and the property of citizens and their poor homes.
The delegation received a committee and its municipal official, who accompanied the delegation to the house of a woman with her children, who was recently built by the state and provided him with needs, and the delegation listened to the explanations of the district official, as well as the woman who had the opportunity to own a new house.
The delegation then moved to the health unit in the neighborhood and listened to a presentation of the mechanisms of the state's attention to the health of citizens and their medicine in Cuba for each 125 families of a doctor and his nurse resident among them receive patients in the morning in the equipped clinic and in the afternoon, they make inspection visits to the homes of citizens, and for all several family medical clinics in the neighborhoods a center that hosts patients to turn them to hospitals and laboratories and secure their medical and pharmaceutical needs.

Then the delegation and the escorts moved to the neighborhood restaurant building, which feeds more than 150 people in need daily, at least two people fell a day and hosted them or delivered food to their homes, and all families were safe during the invasion of the Corona pandemic and the closure that was adopted. Officially.

The delegation then concluded its visit and exploratory tour by heading to the headquarters of the Committee for the Defense of the Revolution, where he attended a dance performance prepared to welcome him and listened to explanations about the structure of the committees and forces of defense of the revolution from the neighborhood to the street, the city and the province.

The delegation returned to the hotel in preparation for the rich and busy third day of activities.

On the morning of the third day, the delegation was organized to visit the Fidel Museum, which was created against its will not to use its name, put its pictures or erect the monument and statues of it.
Listen and admiration for the presentation of the director of the museum and tourist facilities for the reasons that prompted the concerned authorities to choose the neighborhood, the street and the historical building to be the Fidel Museum. The choice was made on the recommendation of taking the place based on the recommendation of a famous Cuban historian after he studied the matter in all its aspects and chose the building and the place for reasons including Castro's love for the region and his establishment of the elderly house and his personal care and the multiplicity of his visit to him and attention to the elderly, and because of his proximity to the highway and close to the house of his brother and his wife, the two fighters who loved them Castro...

The building was built in the 18th century for one of Cuba's richest and bank owners.
He was the one who supported the revolution of José Martí and his comrades in the independence revolution

and was a mediator with America and was received by the US president in the White House.
His wife is best known for her struggles as president of the Association of Catholics in Cuba and the establishment of a hospital. The museum has two libraries of e-books and paper, and there is a printing press and a three-dimensional film room.
A documentary film of the Bay of Pigs War was then screened and Cuba had offered the United States compensation for the Cuban losses of aggression.

In the afternoon, the delegation of the gathering attended a concert of the most famous singers in the unique cultural center throughout the continent for a full hour in the presence of a large audience characterized by revolutionary pieces, singing and public participation. Then a fruitful meeting was held with the development of mechanisms of cooperation with the head of the Cultural Center, Abel Prieto

Fourth day
The delegation organized a pleasant visit to the Higher Institute of Arts with a reputation and important capabilities, which came out the most famous artists.
The spacious building is located on a hill overlooked and a very large garden that was owned by one of the rich colonists. The delegation listened to a full presentation from the representative of the Institute, who responded to the questions and stressed the importance of the Institute, which is taught by more than 300 students in seven disciplines and each specialty has a large number of disciplines and its graduates represent the elite artists not in Cuba, but in the continent and the world. The greatest artists graduated from them in various arts and their reputation and products globally. Students from different countries of the world are also studying in the Institute with grants or at their own expense. Students have housing in the campus of the preparer and organized for the delegation a tour of its buildings and its studio, which was determined to include a female and a womb of recognition from the Cuban Revolution of the importance and role of women in childbirth, education, revolution and work and their absolute right to full equality and full freedom.

The Institute is located in an area inhabited by the richest invaders and is the headquarters of a number of embassies and was established in 76
The most important competencies of the Institute are the disciplines of the arts
The art of preserving the culture of the Cubans in the custom of the revolution and its values is the most important of the Cuban man and man.
The Institute is also interested in and offers classes for workers wishing to develop their skills.
It is the only institute in Cuba and a public sector property. Schools and specialized institutes in certain technical fields are also spread in the governorates.

From him, the delegation moved to the center of the heritage and archive of the revolution in the house of the revolutionary Dr. and former Minister of Culture Dr. Armando Rafiq Castro and the revolutionaries Varshive represents the history of the revolution and its facts and events, “Armando Hart Davalos” ...
A rebel and companion of Castro and Guevara, the historian of the revolution, and its events with critical objectivity.
His wife preserved his legacy, his house and his mattresses as he was and prepared a book about his memoirs.

– National Library Josie Marty
In the afternoon, a visit to the National Library - José Martí received the head of the Public Library of Cuba, Dr. Omar Valino Cedre (Omar Valino Cedre)
He welcomed the delegation, after a lengthy and fruitful meeting and dialogue, and about the importance of

this library in support of the Cuban Revolution and its founder, Dr. José Marti, which contains more than 4 million books and dialogue, affirmed the desire to cooperate and thanked the delegation for the visit.
Dr. Ghaddar thanked the hosting and warm and loving reception and presented the members of the delegation.
He gave a brief presentation to the establishment of the assembly and the stages it went through and mentioned its most prominent stations and struggles.
He stressed the importance of cooperation and partnership between the grouping for its global capacity and its commitment to the option of resistance with Cuba, the people, the revolution and institutions, the exchange of experiences and integrated coordination in the struggle activities to support the oppressed peoples and the resistance.
He said, Cuba is our role model in what its revolution has achieved.
With its steadfastness and historical resistance and with victories that constitute the pride of nations and peoples and embody the strength of a model of peoples of resistance and vividness.
What Cuba suffered from as a result of the injustice, invasions and the harsh siege suffered by our Arab and Islamic peoples, especially the countries and organizations of the resistance, and pointed to the existence of 57 branches of the assembly in more than seventy countries.
The director of the library presented the books and publications of the assembly in addition to the CD on the assembly, its activities, political and organizational documents and the strategic document.
He also presented the members of the delegation, their competencies and the responsibilities they occupy in the structure and management of the assembly.

The Director of the Library welcomed the delegation and stressed the pleasure of the Cuban people and their determination to establish the best relations of struggle with the peoples and resistance movements and steadfastness in the world, stressing that Cuba will remain on the principles and values of the revolution.

He pointed out in detail what Cuba is suffering as a result of the sanctions and the aftermath of the Corona pandemic and the intensification of crises that threaten the end of the world unless the peoples unite in the face of imperialist arrogance, and these are the most important commitments of the National Library, and stressed that the function of the library is to emphasize knowledge and defend the causes of just humanity, and this is what unites us with the gathering and the struggle project.

Cuba suffers a lot these days and we see it as dealing with it as the death of the old world, which was controlled by America and the West.
The aggression does not tire, and we and the people do not and will not tire.

He stressed that our enemy is one and we are united to face the injustice, arrogance, arrogance, American brutality and state terrorism that it represents with the usurping Zionist entity.

However, the struggle of the peoples ended the unilateralism and victories of the peoples produced the beginning of the emergence of a new multipolar world that is not controlled by America and its aggressive alliance.
Imperialism and Zionism are twins and our goal is to defeat them to rid humanity of their evils, and this is what Cuba seeks, and we are partners and the most important goals of the assembly, the fight against imperialism, we seek to assemble the living forces in the world to accelerate victory and salvation.

The director of the library concluded that we will always be together and with you with many organizations concerned with the defense of humanity and we have thousands of documents, documents and photos that

condemn America and the Wild West and assured us that all the documents and books in the library is working to put them online very soon and send you the first thing that is accomplished and confirmed that everything the library has was considered at your disposal.

Day five;

On the visit of the International Center for Medical Cooperation, the delegation received a large and warm reception and then held
We are tasked with preparing and equipping medical units abroad, and there is cooperation with more than 52 countries in the world and we now have more than
26 thousand doctors outside Cuba in total
52 missions in 42 countries since Covid, and Cuba is present to secure any needs or requests for any country that excludes only those who refuse to cooperate with Cuba.

Then the Secretary-General of the World Assembly spoke in support of the option of resistance, the head of the delegation, Dr. Yahya Ghaddar, thanking the hosting, hospitality, seriousness and impulse, which expresses the spirit and values of the revolution.

We congratulate Cuba on its people and leadership for its possession of the center and its medical role in the world, which is the completion of its humanitarian mission, and we are growing up with Cuba and its capabilities to contain COVID despite the circumstances with an unjust siege, and also the assistance of 42 countries, while major countries have been unable, unable and incapable and are incurring in Great Cuba, it is really a great work.

Thus, Cuba presents itself and its role is contradictory and an alternative to the nature of imperialism and the aggressive states that plague people with crises, wars and viruses, while Cuba is working and providing medicine and treating human beings, all of this is the greatness of the thought of José Martí, Castro and his comrades in the revolution.

The director of the center also said that Cuba began its humanitarian and medical tasks to support the people since 16 in the first Cuban medical mission to Chile following a devastating earthquake. He was in Cuba.
600 doctors before the revolution left 300 of them outside, although the revolution was preoccupied with the arrangement of the Cuban house, but it rushed to extend a helping hand to Chile, which was hit by a devastating earthquake and lacked capabilities. Cuba knows solidarity, as Fidel said.
Solidarity, not to give what you have left, but to share what you have left.”

In 1963, Cuba sent a medical mission to Algeria, and from that time on, Cuba has been providing to all the countries of the world so far 150 States with which Cuba has cooperated in the medical field.

In the years 60 to 70, Latin American countries severed relations with Cuba in response to U.S. orders, but Cuba has remained committed and has not been affected or similarly.

Cuba has always been ready to help countries and peoples, Cuba has decided to provide medical grants to alleviate the crises on American countries and has established medical universities in Latin American countries, from which more than 60,000 doctors, including from the United States of America, have graduated.

During Hurricane Katrina in the United States, Cuba offered immediate medical assistance, including 500

doctors, but the administration refused.

Cuba has prepared a qualified army of doctors to respond to needs and deal with natural disasters.
The Emergency Medical Battalion had an important role in Pakistan and Guatemala.

Cuba has 100,000 skilled doctors, including 30,000 in foreign missions and
30% of the national output is spent on the Ministry of Health and 58 percent of the budget is provided to medicine and education.

– Then the delegation visited the House of Arabs in Havana; the escort pointed out that
Before the revolution, about sixty thousand Arabs in Cuba, mostly from Syria, Lebanon and Palestine, left most of them and few left, but the traces of the two nations in architecture, stained glass, columns and domes remain as a distinctive sign in the buildings praised by the Spanish colonists in the Andalusian and Marrakech style.

The delegation toured the pillars of the Arab house and listened to explanations provided by the administrator; he stressed that the impact of the Arabs on Cuban culture, traditions, cuisine, dance, music is clear and more than ten thousand words in the Spanish-Cuban language of Andalusian Arab origin, as well as were greatly influenced by the art and architecture of architecture.

The House of Arabia was established as the first non-Cuban museum in Havana.
The house built in the Andalusian Umayyad style has a rich lawyer and turned it into offices for lawyers and notaries, and then owned by the state after its escape on the eve of the revolution, and this large house is renovated in the same style and in the same materials, and this is expensive and consumes a long time. The old Havana was classified in the world heritage, and its houses, shops and markets are renovated in a comprehensive national effort by the Cuban government in coordination with UNESCO.

Philip Eli Thomas of Lebanese origin was the most prominent commander of the Cuban army in 1985.
The first Minister of Justice in Cuba was a Lebanese Farid Jabbour Maalouf, and Amin Maalouf had visited and resided in Havana, and these names and others were mentioned in the book dedicated to talking about the role of the Arabs and there are more than 600 family names of Lebanese origins and was one of the largest traders of Cuba Cabrial Maalouf 1819.

—

Day six;

Visiting a scientific edifice outweighs Cuba over the major and developed countries and has enormous potential and wealth.

The Center for Genetic Engineering and Biotechnology is one of the most important edifices of Cuba and the products of its great popular revolution, with more than 100,000 scientists and workers in the science and technology sector.
First taste of COVID
taste of cancer
1980 was established and then the state was established.
Many centers in the governorates, and these centers excelled globally, and they are the first to produce a vaccine that combines five diseases and meetings against hepatitis and manguites, which are fully manufactured and free of complications and treatment of limb ulcers in people with diabetes, which prevents the amputation of the limbs and provides healing and treatment of clots and many other very advanced

research in fibrosis diseases in the lung, cancers, rheumatism and many other diseases.
the Bio Technology Center
Despite the siege and poverty, its supplies and equipment were secured with high efficiency and at a huge cost to the people to secure their future and achieve miraculous superiority.

The delegation received dr. Gerardo Enrique Nieto
(Dr Gerardo Enrique Guillén Nieto)
The director of the center with a warm welcome and a confident and vital smile, and
Presentation of a video about the Center and its activities and qualitative achievements in its capacity
Pilot Centre of Cuba and Latin America, Pião Cuba Pharma Holding meets 32 institutions, the Biotechnology and Pharmaceutical Sector is considered the most important and most focused, the Holding Foundation is a public sector in direct relationship with the head of state without any other authority.
They are integrated institutions and do not compete for each one of the goals and special plans, and the scope of its work, as an institution interested only in cancer and other nerves and one for vaccines and other diseases.
The center has a wider scope and interests and has a wide technological platform and adopts the technique of fermentation bacteria and yeasts and works on mammary cells, cells in the ovary, hormones, proteins, and the manufacture of proteins for laboratories, in our center 1440 workers and 350 researchers, and a number of experts in production and quality.
Established in 1986, one of the objectives is to obtain the capacity of local production of medicines and treatments.

In the less than ten years it has achieved the task, and all the very important products are made with high technology.
After the collapse of the Soviet Union, we had to work to secure the needs and revive the economy and, most importantly, innovate, for example; we produced innovative products such as the treatment of hepatitis - the vaccine of the hepatic epidemic through fermentation in 1990 and was vaccinated in 1992 to stimulate collective immunity. There are no longer cases of a liver epidemic in Cuba.
The cost of the vaccine is 100 dollars, 4 vaccines at 400 dollars, Cuba America has exceeded ten years since 2000.
The meningeal vaccine, the world’s only vaccine, was also produced and tested with the industrial bacteria vaccine in the center’s laboratories.
Millions of vaccines were made and exported to the world.
The Cuban product is competitive in quality, quality and feasibility. Doctors, researchers and the state do not want to profit.
We produced one vaccine for five diseases such as meninges, hepatic epidemics, whooping cough, diphtheria...
An innovative product such as a load to treat hemorrhoids, through sterbokinase suppositories to treat clots that lead to disease, hemorrhoids.

2008 A drug was produced for very advanced ulcerative treatments, which is the only one in the world, with a successful rate of 85%, and a patent was registered in the world and America, and 26 countries and exported to it.
The cancer vaccine increases the patient's life 5 years at least without suffering and an alternative to chemotherapy with devastating effects on the patient and we have
A product to boost the primary immunity of the elderly

Research is underway to produce vaccines and treatments for respiratory diseases.
The members of the delegation of specialized doctors asked questions and a high-level and vital dialogue, and Dr. Yahya Ghaddar, Secretary-General of the World Assembly to support the option of resistance and the head of the delegation and the internationally renowned doctor, asked about the possibility of cooperation with Lebanon and the supply of these medicines and products, especially that Lebanon suffers from a catastrophic medical and hospital crisis and needs everything and Cuba the revolution extends its white hand to all, and Dr. Ghaddar praised this giant and pioneering experience, which emphasizes the importance of the Cuban revolution and its uniqueness and excessive interest in the people and their health and science and medicine, and this is not strange to Cuba Revolution and its leaders Che Guevara and Fidel Castroa and it was agreed to continue to continue and strive to achieve the interest of the people and the poor and oppressed world.

– Afternoon

The delegation visited the Center for Cuban-American Relations, and listened after the management of the center welcomed a historic presentation by the head of the center. Raoul Rodríguez Rodríguez (Dr Raoul Rodríguez) on the establishment and function of the Institute
As an academic and educational center, it publishes magazines, articles and studies, and its employees, including historians, political scientists, and sociologists and economists.
The work of the center is carried out with interaction between researchers and cares
The study of the United States of America and its policies towards South and Latin America, and is studied in other matters of American attention.
In 1952, America was treating Cuba as its property, and when the revolution was victorious, the American reaction was very violent, it carried out confrontational and hostile policies of the Cuban revolution, and it aimed to prevent the spread of the model to other countries.

The director of the center said; there are four governing elements of the nature of relations between Cuba and America;
Cuba is an island based mainly on import and American, and therefore America sought to starve Cuba to punish it and prevent its world-loved model of generalization and sovereignty, especially since the character of Castro and Che is loved by the people.
U.S. foreign policy towards Cuba is based on pressure on all countries to sever relations with Cuba and ban relations with Cuba.
3- Imposing internal compliance and helping anyone who stands against the revolution and opposes its authority, and trying to create chaos in it.
4 - Attempts to invade, military or peaceful
The elements and tactics are changed from one stage to another according to the transformations and circumstances ... These days, the tactical effort is focused on the siege and internal compliance ...
Cuba has developed its capabilities and relations with countries and peoples, especially in Latin America and Africa.
After Fidel’s death, America assumed that Cuba was more ready to fall into its hands, trying to bet on the new generations and seeking to create a spring like an Arab in Cuba to booby-trap it and take it into chaos.

The Secretary-General of the World Assembly in support of the option of resistance, Dr. Yahya Ghaddar, thanked the Director of the Center for the reception and the brief and precious presentation he gave on the history of the American targeting of Cuba, and condemned in the name of the Assembly the aggressive

American policies, America is experimenting with Cuba and generalizing its experiences in attempts to overthrow countries and movements opposed to it, what Cuba is experiencing imposes on Syria, Lebanon, Iran and Yemen.

The experience of Cuba and its suffering because of its proximity to America and the fact that it is an island that represents its resistance and steadfastness is a landmark model and we come to it to learn from it, and we are suffering from what the Cuban people suffer as a result of American aggression, but the resistance of Cuba and its model will win and teach the peoples of resistance to victory and these transformations of Latin America to the left are the best evidence.

We are not afraid of Cuba, Cuba, under its leadership, its state and its system that raises the slogan of science and health cannot be defeated, and Cuba will win a rule.

The Secretary-General Dr. Ghaddar, head of the center, deposited the documents of the global gathering to support the option of resistance and told him about the intention to hold a conference in Tehran and another in Damascus to condemn the policies of the US blockade and a world free of nuclear weapons.
In conclusion, the President of the Center stressed his desire for cooperation and his readiness to develop the dialogue and strategic relationship with the grouping.

The delegation then moved to the headquarters of the Humanity Defense Network in Havana (REDH)
The delegation received the director of the center, Aryan, and welcomed him...
The Secretary-General, Dr. Yahya Ghaddar, gave an introduction and a presentation on the global gathering to support the option of resistance and its activities, and was known as the members of the delegation and their qualities, and their competencies.
Then the host knew about herself and her tasks and gave a presentation on the association and the date of its establishment, goals and activities in Latin America, Europe and Asia and the nature of its clients from elites, movements and associations and seeks to establish activities and presence in the Middle East and the Arab world, and prepared a study to promote the activities of the network to defend humanity through various media and communication, and is dealing with the channel and institutions of Tel Sur and expressed the desire to cooperate with the assembly, the idea of the network and its launch came from Fidel after the invasion of Iraq, and the exposure of American barbarism and aggression against humanity,
Pablo Satanova produced a vision and plan for global outreach for peace, and began working with Mexico, Spain and others.
2004 Castro and Chávez met in Havana with representatives of associations in the world and decided to launch the network. Representatives of countries have begun the establishment of centers and headquarters in Venezuela in Caracas.
The partnership between the countries of Cuba and Venezuela was to support and support the network, while in other countries, relations with movements and elites,
As an organization that defends the planet and defends the peoples, to defend liberation, sovereignty and international law, to defend unity in diversity, culture and knowledge, to defend the truth, freedom, memory and the right to receive real information.
The network has a horizontal administration, the network does not deal with politics directly and does not seek to be a party and accepts any party or association or individual in its structure and absolutely rejects parties and associations of the holders of liberal thought and practices.

Then the General Coordinator of the Assembly, Dr. Ernesto. He is the Dean of the University of Havana.
He said: Cuba and the Arabs have strong and solid relations and for six decades in which the Cuban

revolution sought to build militant relations with the Arab world, our peoples are partners in the face of American aggression everywhere and our model is Che Ernesto Guevara, who made the first visit to the United Arab Republic under the leadership of Gamal Abdel Nasser, and for this we have a deep awareness and knowledge and an asset with the issues of Arabs and their rights.
The Cuban Revolution established relations with the Palestinians and participated in a Cuban tank battalion in defending Syria and for the liberation of the Golan.
We support the Palestinian people in the face of the Zionist entity and Cuba did not and will not recognize Israel and strengthen and support Venezuela's relationship with Iran to confront the sanctions against them.
We have normal and militant relations between Cuba and the Arab and Islamic world, and I find that the objectives of the gathering are identical to the objectives of the network that I represent.
We, as the peoples of the common enemy of imperialism, Zionism and fascism, too.
We must unite to maximize our performance and achieve our goals.

He thanked the gathering for the visit and the attention.
The Secretary-General of the Assembly, Dr. Ghaddar, presented the documents of the gathering and the CD of the hosts and explained the objectives, motives and obligations of the World Assembly to support the option of resistance and its course since it was an idea and then its establishment of 2005 and its transformation from the Lebanese. It was established by the need for the world, 55 activists, experts, media, professionals and professors, and its establishment of a series of activities and attracted many activities and leaders, which qualified it to develop its structure and extensions outside Lebanon to be the 2011 Arab and Islamic gathering and launched its establishment with the anniversary of the July Revolution in Cairo, and then it was transformed into the global gathering in July 2021, and it was carried out by its partnership and the foundations of its Arab, Islamic and global cooperation and activities.
The transformations of the assembly, its management and the approval of its documents were unanimously affiliated and after discussions, dialogues and amendments in the texts ..
The hosts handed over the assembly documents and CD..
He thanked the Director and the General Coordinator of the Network for their information and a good presentation about the Network, its data and its objectives...
We came to Cuba and traveled great distances because we love Cuba and support it and for the sake of cooperation with it and with you to support it and the people.
We hope to join forces with all the forces of free peoples hostile to imperialism and Zionism, to achieve our goals and liberate humanity from the domination of the brutal liberalism and aggression of the West led by America.

We extend our hand to you to work together to achieve the goals of José Marty, Fidel, Guevara, Chávez, Abdel Nasser, Imam Khomeini, Qasim Suleiman, the leader, Grand Ayatollah Imam Khamenei, may God sustain his shadow, and all those fighting for a world free of colonialism, imperialism and Zionism.

The Secretary-General of the Assembly stressed the desire of the Assembly to sign a contract of interaction and partnership between the Assembly and the network. As direct practical steps, we can co-prepare a world conference entitled A world free of nuclear weapons and a conference to prosecute States and those responsible for the blockade and sanctions. d.
In conclusion, the Coordinator-General of the Network stressed the coordination and cooperation with the assembly in a mechanism that suits the assembly.

Day seven;

The delegation of the World Assembly, headed by the Secretary-General, Dr. Yahya Ghaddar, paid a working and farewell visit to the Cuban Association for Cooperation with the Peoples at its headquarters in Havana.
Receive the delegation
The meeting was attended by the former Cuban ambassador in Beirut, Alexander Besser Moraga (Alexander Piessir Moraga)
The meeting took place at his request as Middle East and North Africa official at the Cuban Foreign Ministry.
The ambassador spoke casually to his experience, experience and knowledge of Lebanon and its people, stressing that America's aggressiveness increases its barbarism and targets everyone and will not change, which exposes Cuba to crises and the loss of many basic needs, such as medicines and food, and stressed that the goal of the blockade is to punish Cuba and try to overthrow it, your visit to us is important and enhances our confidence in ourselves and the free people of the world.
Here in Cuba, I tell you that the majority of our people support the revolution and the state and rally around it, and all attempts to shake the stability of Cuba and provoke movements of isolated groups of outlaws and consensus will fail, and when some of them tried to organize movements to portray and present them as a revolution that the Cuban people have confronted, not security and the police, our people are conscious and vital and adhere to the revolution, and our revolution and our state believe in its people and represent it well.

Dr. Yahya Ghaddar, Secretary-General of the World Assembly, thanked the representative of the Cuban Ministry of Foreign Affairs for his gesture and his request to meet with the delegation of the Assembly and reminded the Ambassador of the Assembly and its origins, circumstances, achievements and explanation of its developments and transformations to reach its universality. America targets Cuba and targets the Arabs in the heart of the world and cultivated the Zionist entity in Palestine and the aggression of America and its allies on Syria, Lebanon, Iraq, Yemen and Libya, and anyone who rejects its dictates and imposes a severe siege on Iran just as it is on Cuba. We view Cuba as a pioneering experience and is a milestone in the resistance, steadfastness, confrontation, breaking the siege, conquering America and defeating its tools.
This is why we have been together since 2005, our work in Lebanon and then the Arab world. The Islamic world is now a global gathering and we came to assure Cuba that we are together and must face together and win together.

He stressed the existence of 57 branches of the gathering, and is present in 73 countries in the world, all of whom believe in the objectives of the gathering and participated in the format of its documents and vision, and the ambassador handed over the documents printed and cd...

We tell you and the revolution and the people and the state that we are here to unite the effort, work and potential to face together the arrogance and brutality, together we are stronger and more capable and we will wrest victory.

All the organizations and countries of the Axis of Resistance are partners in the assembly and with us with their leaders in the structure and organization of the assembly in Lebanon, Iran, Iraq, Syria, Yemen, Algeria, Palestine and the assembly conferences were in Lenan, Cairo and in Syria under the auspices of President Assad and in Tehran, and all of them support and support the assembly and work in partnership with everyone to confront imperialism, Zionism and reaction in all its manifestations.

We are interested in Cuba being an integral part of the gathering and we are interested in Havana being a major center in Latin America and the Caribbean, and so we are uniting the anti-American forces and their alliance and aggression.

The gathering has representatives and coordinators in 22 Arab countries and in a number of Islamic countries. The gathering was a partner in the preparation of the conference and activities of the second anniversary of the martyrdom of Commander Qassem Soleimani in Iran.

The Secretary-General Dr. Ghaddar reviewed the bright names of Arabs and foreigners actors and leaders of movements in Asia, Europe and the world, members, coordinators and assistant general secretaries. The gathering has a second main office in Cairo and is present in Africa and its strong branches, all in the service of the Cuban revolution and in the defense of Cuba and the free people of the world.

We hope that a strong and stable relationship will be established with Cuba, let the Assistant Secretary-General of America and the Caribbean be from Cuba, and let it be the center of gravity in Havana.

On June 29, the last day of the working visit of the delegation of the World Assembly in support of the option of resistance headed by the Secretary-General, Dr. Yahya Ghaddar, to the People's Republic of Cuba at the invitation of the Cuban Association for the Solidarity of Peoples (Icap), held a meeting with the Vice-President of the Assembly, with the participation of its officials, in Africa, Asia and the Pacific, at the official headquarters in the capital Havana.
The Cuban delegation expressed and stressed that many of the points and items presented in the draft are the subject of mutual agreement and commitment, stressing that the draft contract will be discussed with great interest and focus in the bodies and leaders of the Assembly to develop proposals, approve and sign their joint visit to Havana or through interaction and electronic and social communication. The two parties agreed to start cooperation and interaction in various fields and events to enhance cohesion and maximize the global popular movement in addressing American and Western aggression.
The leaders of the seven countries, representatives of the imperialist colonial powers, are meeting to endorse plans for human beings as we gather here and cooperate to protect human beings and humanity.
The head of the delegation of the World Assembly to support the option of resistance, Secretary-General Dr. Ghaddar and the members of the delegation appreciated the efforts, seriousness and ethics of the Assembly and its leadership and the pledge of God and the resistance to work with all seriousness and activity and activate the branches and coordinators of the Assembly in 57 countries and its members spread in more than 73 countries and meet the obligations of the Assembly, which he took on himself, which are the same topics of the agreement with the Cuban Friendship Association and the principles of the contract to be signed are already at the heart of the program and tasks of the Assembly and its documents, and the two parties agreed to continue and deepen the dialogue between them and invite others to participate.

Victor López, Vice President of the Cuban Friendship with Peoples Association (ICAP), said: “Your visit and its exceptional importance in circumstances where your country suffers from severe crises and is subject to sieges and threats, as well as Cuba, and we are in the process of responding to America’s aggressive strategies of creative chaos, and we must all cooperate in launching creative resistance, which in every country of our country is based on the history of its honorable people, its great martyrs and leaders, and on national education and culture, and adherence to sovereignty and the right to a free and dignified life.

In conclusion, the delegation of the Assembly said goodbye to the headquarters of the Assembly with a warm welcome and the delegation also received and renewed the thanks of the leadership of the Assembly and its members for the attention, seriousness, hospitality and revolutionary ethics in dealing and cooperation.
